MLO Computer Policies for Visitors

1. All computers at the Mauna Loa Observatory must have a type of antivirus software installed on the system.
2. MLO will only provide support for the following operating systems for new systems:

    Windows XP
    Windows 2003
    Windows Vista
    Mac OS X
    Linux

3. Modems are not allowed to be connected to a PC, which is also connected to MLO's network.
4. To obtain Ip addresses please contact Darryl Kuniyuki. You will be assigned a public Ip address unless you request to be inside our firewall. If you want to be behind this firewall please contact Darryl for special configuration information.
5. MLO will not be responsible for backing up your system; you are responsible for maintaining your system.
6. It is highly recommended that your system be on a UPS, which you must provide. MLO will not be responsible for damages caused by power surges or lightning strikes.
7. Do not use any computers other than your own and the designated guest computers provided. Do not install any programs on MLO computers without permission from MLO system staff.
8. If you borrow anything, Please remember to return it.
